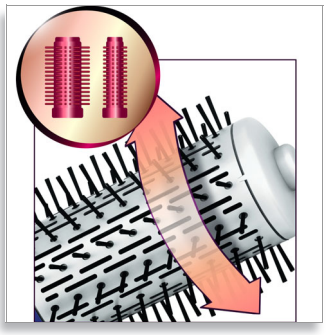
Dynamic Volume Brush Ceramic

HP8665/81

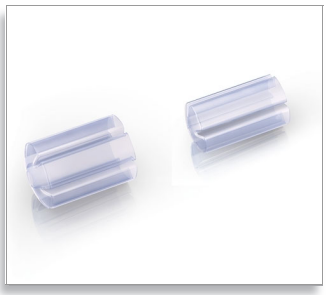
Highlights

2 way rotation



The brush can be rotated in both directions for easy handling and the creation of a variety of styles.

Brush caps



The brush caps protect the bristles from any damage when storing the Dynamic Volumebrush.

'Care' setting

The 'Care' temperature provides the optimal drying temperature and gives additional protection from overheating the hair. With the same powerful airflow, you will get the best results in a caring way.

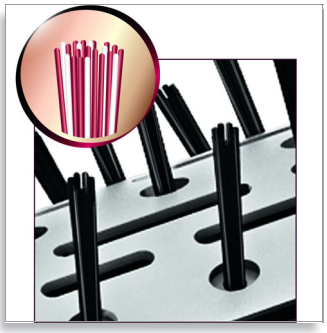
More care with Ceramic element

The ceramic element issues far infrared heat, which has a gentle warmth that helps dry your hair from within and protects it from overdrying, without compromising on speed and effectiveness.

Ionic Care

Ionic conditioning enables anti-static drying. Charged negative ions eliminate static hair, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is smooth and frizz-free hair that shines beautifully.

Natural bristles



Natural bristles are used in the brush to give the hair a smoother feeling. With less friction the hair gets less damaged.

Specifications

Technical specifications
- Wattage: 1000 W
- Cord length: 1.8 m
- Color/finishing: white and purple

Features
- Ceramic coating
- Swivel cord
- Settings: 3 heat/speed settings
